Our History

LUMEN CENTER, fondata nel 1976 a La-Fare-les-Oliviers sotto la direzione artistica di Gilles Derain, ha una storia ricca e affascinante nel mondo del design e dell’illuminazione. Derain, un noto esponente del design contemporaneo francese e studioso dell’UAM (Union des Artistes Modernes), ereditò il suo approccio stilistico e progettuale dagli insegnamenti di Jacques Adnet e dallo studio del modernismo internazionale. La lampada MCP, creata da Derain nel 1979 ed esempio della sua ricerca approfondita, è diventata un successo commerciale significativo, tanto da essere inclusa nella collezione permanente del Museo di Arti Decorative di Montreal.

Nel 1992, l’azienda viene acquisita da un imprenditore milanese, dando inizio a una fase di consolidamento della sua posizione nel mercato dell’illuminazione italiano e internazionale. La collaborazione con rinomati designer francesi, tra cui Jean-Michel Wilmotte, e l’alta qualità dei prodotti offerti hanno ulteriormente contribuito al successo dell’azienda.

Negli anni Novanta, LUMEN CENTER ha intrapreso un importante progetto di interior design e illuminazione per il Royal Pines Hotel di Urawa in Giappone chiamato “Life River” in collaborazione con VillaTosca Design, il Centro Europeo di Design di Panasonic. Questo progetto rappresenta l’elevata competenza tecnica e produttiva dell’azienda, evidenziando la sua flessibilità nel realizzare progetti su misura.

L’azienda ha continuato a distinguersi a livello internazionale con iniziative come sperimentazioni sulle sinestesie tra luce, colore e suono, l’utilizzo di sorgenti luminose alternative come gli OLED e studi sull’interazione tra luce e metabolismo umano.

Negli anni LUMEN CENTER è stata sponsor dell’illuminazione del food court del Padiglione Giappone ad Expo 2015 e ad oggi contribuisce all’illuminazione di opere d’arte importanti presso la Veneranda Pinacoteca Ambrosiana di Milano, dimostrando il suo impegno nel sostenere progetti culturali e artistici di rilievo.

Founded in 1976 in La Fare les Oliviers under the artistic direction of Gilles Derain, LUMEN CENTER has a rich and fascinating history in the world of design and lighting. Derain, a prominent exponent of contemporary French design and expert of the UAM (Union des Artistes Modernes), inherited his stylistic and design approach from the teachings of Jacques Adnet and the study of international modernism. The MCP lamp, created from Derain in 1979 and an example of his in depth research, became a significant commercial success, so much so that it is included in the permanent collection of the Montreal Museum of Decorative Arts.

In 1992, the company was acquired by a Milanese entrepreneur, initiating a phase of consolidation of its position in the Italian and international illumination market. Collaboration with renowned French designers, including Jean Michel Wilmotte, and the high quality of the products offered further contributed to the company’s success.

In the nineties LUMEN CENTER started an important interior design and illumination project for the Royal Pines Hotel in Urawa, Japan, which was entitled “Life River” and was realized in cooperation with VillaTosca Design, the European Centre for Design of Panasonic. This project represents the company’s high level of technical and production expertise, highlighting its flexibility in realising customised projects.

The company has continued to distinguish itself internationally with initiatives such as experiments on synaesthesia between light, colour and sound, the use of alternative light sources such as OLEDs and studies on the interaction between light and human metabolism.

Over the years LUMEN CENTER has been the sponsor of the lighting of the food court of the Japan Pavilion at Expo 2015 and to date contributes to the lighting of important works of art at the Veneranda Pinacoteca Ambrosiana in Milan, demonstrating its commitment to supporting important cultural and artistic projects

L’histoire de LUMEN CENTER, une société fondée en 1976 dans la ville provençale de La-Fare-les-Oliviers sous la direction artistique de Gilles Derain, est la fois riche et fascinante dans le monde du design et de l’éclairage. Derain, un éminent représentant du design contemporain français et expert de l’UAM (Union des Artistes Modernes), a hérité son approche stylistique et conceptuelle des enseignements de Jacques Adnet et de l’étude du modernisme international. Un exemple de sa recherche minutieuse est la lampe MCP, réalisée par Derain en 1979 et devenue un énorme succès commercial, au point d’être incluse dans la collection permanente du Musée des Arts Décoratifs de Montréal.

En 1992, la société fut reprise par un entrepreneur milanais et la collaboration consolidée avec des designers français de renom, dont Jean-Michel Wilmotte, ainsi que la haute qualité des produits proposés, permettent à l’entreprise de renforcer rapidement sa position sur la scène italienne et internationale de l’éclairage.

Au cours des années 90, l’entreprise entre en contact avec le centre de design européen de Panasonic, VillaTosca Design, créant conjointement un important et ambitieux projet de design d’intérieur et d’éclairage pour l’hôtel Royal Pines à Urawa, au Japon. Le projet s’appelle “Life River” et représente l’immense savoir-faire technique et de production de l’entreprise, ainsi que sa capacité à réaliser des projets “sur mesure” avec une grande flexibilité.

Depuis, l’entreprise n’a jamais cessé de se démarquer au niveau international, en menant une multitude d’initiatives, telles que des expériences sur la synesthésie entre la lumière, la couleur et le son, l’utilisation de sources alternatives telles que les OLED et des études sur l’interaction entre la lumière et le métabolisme humain.

Au fil des ans, LUMEN CENTER a également sponsorisé l’éclairage de l’aire de restauration du pavillon du Japon à l’Expo 2015 et assure l’éclairage des œuvres importantes à la Veneranda Pinacoteca Ambrosiana de Milan, démontrant ainsi son engagement pour le soutien de projets culturels et artistiques importants.

Gegründet im Jahr 1976 in La-Fare-les-Oliviers unter der künstlerischen Leitung von Gilles Derain, hat LUMEN CENTER eine reiche und faszinierende Geschichte in der Welt des Designs und der Beleuchtung. Derain, ein prominenter Exponent des zeitgenössischen französischen Designs und Gelehrter des UAMs UAM (Union des Artistes Modernes), erbte seinen stilistischen und künstlerischen Ansatz von der Lehre von Jacques Adnet und die Studie des internationalen Modernismus. Die MCP-Lampe wurde von Derain im Jahr 1979 kreiert und ist ein Beispiel von seiner tiefen Recherche. Sie wurde einen bedeutenden kommerziellen Erfolg, so dass sie wurde in der permanenten Kollektion des Montreal Museum of Decorative Arts inkludiert.

Im Jahr 1992 wurde die Firma von einem Unternehmer aus Mailand und damit fing die Phase der Konsolidierung seiner Position im Italienischen und internationalen Markt an. Kooperationen mit bekannten französischen Designer wie Jean-Michel Wilmotte und die hohe Qualität der angebotenen Produkte haben zum Erfolg des Unternehmens beigetragen.

In den 1990er Jahren realisierte LUMEN CENTER das wichtige Innendesign- und Beleuchtungsprojekt „Life River“ für das Royal Pines Hotel in Urawa, Japan. In Zusammenarbeit mit VillaTosca Design und dem European Design Centre von Panasonic zeigt dieses Projekt das technische Know-how und die Flexibilität des Unternehmens bei der Umsetzung maßgeschneiderter Projekte.

Das Unternehmen hat sich weiterhin international mit Initiativen wie Experimenten zur Synästhesie zwischen Licht, Farbe und Klang, dem Einsatz alternativer Lichtquellen wie OLEDs und Studien zur Interaktion zwischen Licht und menschlichem Stoffwechsel profiliert.

Im Laufe der Zeit sponserte LUMEN CENTER die Beleuchtung des Food-Courts des japanischen Pavillons auf der Expo 2015 und unterstützt weiterhin die Beleuchtung wichtiger Kunstwerke in der Veneranda Pinacoteca Ambrosiana in Mailand, was sein Engagement für kulturelle und künstlerische Projekte betont.

_ Made in Italy

- Da quasi 50 anni, LUMEN CENTER è un laboratorio di grande importanza che persegue l'eccellenza. Fin dalle sue origini, l'azienda ha tratto ispirazione e forza creativa da esperienze e collaborazioni a livello internazionale, ma è nella produzione Made in Italy, che prevalentemente avviene nel nostro stabilimento di Santo Stefano Ticino, che trova la sua principale forza.

La qualità dei materiali, l'attenzione ai dettagli e la maestria artigianale sono i tratti distintivi del know-how aziendale. Pur mantenendo una solida tradizione artigianale, LUMEN CENTER continua a esplorare nuove soluzioni e ad adottare tecnologie all'avanguardia. Il risultato è la creazione di prodotti e in cui l'essenza del design si fonde armoniosamente con la perfetta funzionalità.

- For almost 50 years LUMEN CENTER has been laboratory of great importance that pursues excellence. Since its beginnings, the company has drawn inspiration and creative strength from international experiences and collaborations, but it is in the Made in Italy production, which predominantly takes place in our factory in Santo Stefano Ticino, that this finds its main strength.

Quality materials, attention to detail, and artistry are the hallmarks of the company's know how. Alongside the solid traditional craftsmanship, LUMEN CENTER continues to explore new solutions and to adopting edge technology. The outcome is the creation of products in which the essence of the design blends harmoniously with perfect functionality.

- Depuis près de 50 ans, LUMEN CENTER est un laboratoire de grande envergure qui vise l'excellence. Depuis le début, l'entreprise a su puiser son inspiration et sa force créative dans les expériences et les collaborations internationales, mais son plus grande atout, c'est la production strictement Made in Italy, qui se déroule principalement dans son usine de Santo Stefano Ticino.

Qualité des matériaux, souci du détail et savoir-faire artisanal

sont les maîtres-mots du savoir-faire de l'entreprise. Dans le sillage d'une longue tradition artisanale, LUMEN CENTER continue d'expérimenter de nouvelles solutions et des technologies de pointe, donnant vie à des produits qui conjuguent admirablement la quintessence du design et une parfaite fonctionnalité.

- Seit fast 50 Jahren ist LUMEN CENTER ein Labor von großer Bedeutung, das nach Exzellenz strebt. Seit seinen Anfängen schöpft das Unternehmen Inspiration und kreative Kraft aus internationalen Erfahrungen und Kooperationen, aber seine größte Stärke liegt in der Produktion "Made in Italy", die überwiegend in unserem Werk in Santo Stefano Ticino stattfindet.

Hochwertige Materialien, Liebe zum Detail und Kunstfertigkeit sind die Markenzeichen des Know-hows des Unternehmens. Neben der soliden traditionellen Handwerkskunst erforscht LUMEN CENTER immer wieder neue Lösungen und setzt modernste Technologien ein. Das Ergebnis ist Produkte, bei denen sich die Essenz des Designs harmonisch mit perfekter Funktionalität verbindet.

_ Gilles Derain

- Gilles Derain è stato un intermediario nel commercio di quadri dei maestri all'età di vent'anni, ma successivamente ha deciso di formarsi nel design frequentando il mercato delle pulci. È diventato uno specialista rinomato nella storia dell'arts décoratifs e un precursore del “syndrome de la tôle époxy noire”. Alcune delle sue opere più famose includono la lampada “MCP Merci Chateau Pierre” e l'applique murale “Torchère”.

- Gilles Derain was an intermediary in the trade of master paintings at the age of twenty, but later decided to study design by frequenting flea markets. He became a renowned specialist in the history of arts décoratifs and a precursor of the “syndrome de la tôle époxy noire”. Some of his most famous works include the floor lamp “MCP Merci Chateau Pierre” and the wall lamp “Torchère”.

- Gilles Derain était un intermédiaire dans le commerce des tableaux de maîtres à l'âge de vingt ans, mais il a ensuite décidé d'étudier le design en fréquentant les marchés aux puces. Il est devenu un spécialiste renommé de l'histoire des arts décoratifs et un précurseur du “syndrome de la tôle époxy noire”. Certaines de ses œuvres les plus célèbres incluent le lampadaire “MCP Merci Chateau Pierre” et l'applique murale “Torchère”.

- Gilles Derain war im Alter von zwanzig Jahren ein Vermittler im Handel mit Gemälden der Meister, entschied sich jedoch später, sich im Design zu spezialisieren, indem er Flohmärkte besuchte. Er wurde ein angesehener Experte für die Geschichte der arts décoratifs und ein Vorläufer des “syndrome de la tôle époxy noire”. Einige seiner berühmtesten Werke sind die Lampe “MCP Merci Chateau Pierre” und die Wandlampe “Torchère”.

Torchère

Design G. Derain, 1984

ANTICHE SUGGESTIONI

Disegnata nel 1984 da Gilles Derain, Torchère richiama il fascino delle antiche torce da muro. La struttura in metallo ancorata a parete diffonde nell'ambiente un'illuminazione indiretta e diffusa.

ANCIENT CHARM

Designed in 1984 by Gilles Derain, Torchère recalls the charm of old wall torches. The metal structure anchored to the wall spreads indirect and diffuse lighting into the room.

CHARME ANCIEN

Dessinée en 1984 par Gilles Derain, Torchère réinterprète le charme des anciennes torches murales. La structure métallique ancrée au mur, émane une lumière indirecte et diffuse.

ALTER CHARME

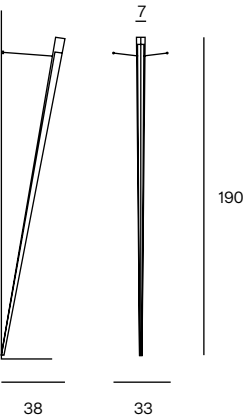

Entworfen 1984 von Gilles Derain, erinnert Torchère an den Reiz der alten Wandfackeln. Die Struktur aus Metall, die an der Wand fixiert ermöglicht die Verbreitung eines indirekten und suggestiven Lichtes im Raum.

TORCHÉRE
Wall lamp

- Lampada da parete realizzata in metallo con attacco a terra. Sorgente LED integrata e dimmer a pedale incluso. Disponibile in nero opaco, bianco opaco ed oro verniciato.
- Wall lamp made of metal with floor socket. Embedded LED lighting source and pedal dimmer included. Available in matte black, matte white and painted gold.
- Applique murale en métal avec prise de terre. Source LED intégrée et variateur d'intensité à pédale inclus. Disponible en noir mat, blanc mat et or peint.
- Wandlampe aus Metall mit Stecker auf dem Boden. Integrierte LED-Lichtquelle und Pedal-Dimmer. Verfügbar mit Verzierungen in mattschwarz, mattweiß oder lackiertem Gold.

– Jacques Adnet

– Jacques Adnet, formatosi presso la scuola di Arti Decorative, ha diretto la Compagnie des arts français promuovendo l’”Évolution dans la tradition”, collaborando con diversi artisti. Le sue lampade degli anni ‘20 e ‘30 erano all’avanguardia e certamente moderne, integrandosi perfettamente con il design modernista in metallo e vetro. Nel 1958, fu nominato ufficiale delle Arti e delle Lettere dal generale de Gaulle e nel 1959 divenne direttore dell’École nationale supérieure des arts décoratifs, ritirandosi nel 1970.

– Jacques Adnet, who graduated from the School of Decorative Arts, directed the Compagnie des arts français promoting the “Évolution dans la tradition” philosophy, collaborating with various artists. His lamps from the ‘20s and ‘30s were pioneering and distinctly modern, seamlessly integrating with the modernist design made of metal and glass. In 1958, he was appointed Officer of the Arts and Letters by General de Gaulle, and in 1959, he became the director of the École nationale supérieure des arts décoratifs, retiring in 1970.

– Jacques Adnet, formé à l’École des Arts Décoratifs, a dirigé la Compagnie des arts français en promouvant la philosophie de “l’Évolution dans la tradition”, en collaborant avec divers artistes. Ses lampes des années 20 et 30 étaient révolutionnaires et résolument modernes, s’intégrant parfaitement au design moderniste en métal et en verre. En 1958, il a été nommé Officier des Arts et des Lettres par le général de Gaulle, et en 1959, il est devenu directeur de l’École nationale supérieure des arts décoratifs, prenant sa retraite en 1970.

– Jacques Adnet, der an der Schule für dekorative Künste ausgebildet wurde, leitete die Compagnie des arts français und förderte die “Évolution dans la tradition”-Philosophie, indem er mit verschiedenen Künstlern zusammenarbeitete. Seine Lampen aus den 1920er und 1930er Jahren waren wegweisend und zweifellos modern und fügten sich nahtlos in das modernistische Design aus Metall und Glas ein. Im Jahr 1958 wurde er von General de Gaulle zum Offizier der Künste und Briefe ernannt, und 1959 wurde er Direktor der École nationale supérieure des arts décoratifs, wo er bis zu seinem Rücktritt im Jahr 1970 tätig war.

Quadro

Design J.Adnet, 1929

RAFFINATE GEOMETRIE

Disegnata nel 1929 da Jacques Adnet, Quadro riflette l'eleganza, il minimalismo e lo stile sobrio e raffinato delle correnti razionaliste degli anni Trenta. Quadro fu realizzata negli anni Settanta su decisione dell'allora direttore artistico Gilles Derain.

REFINED GEOMETRIES

Designed in 1929 by Jacques Adnet, Quadro reflects the elegance, the minimalism and the refined and subdued style of rationalists from the 1930s. Quadro was created in the 1970s on the behest of then artistic director Gilles Derain.

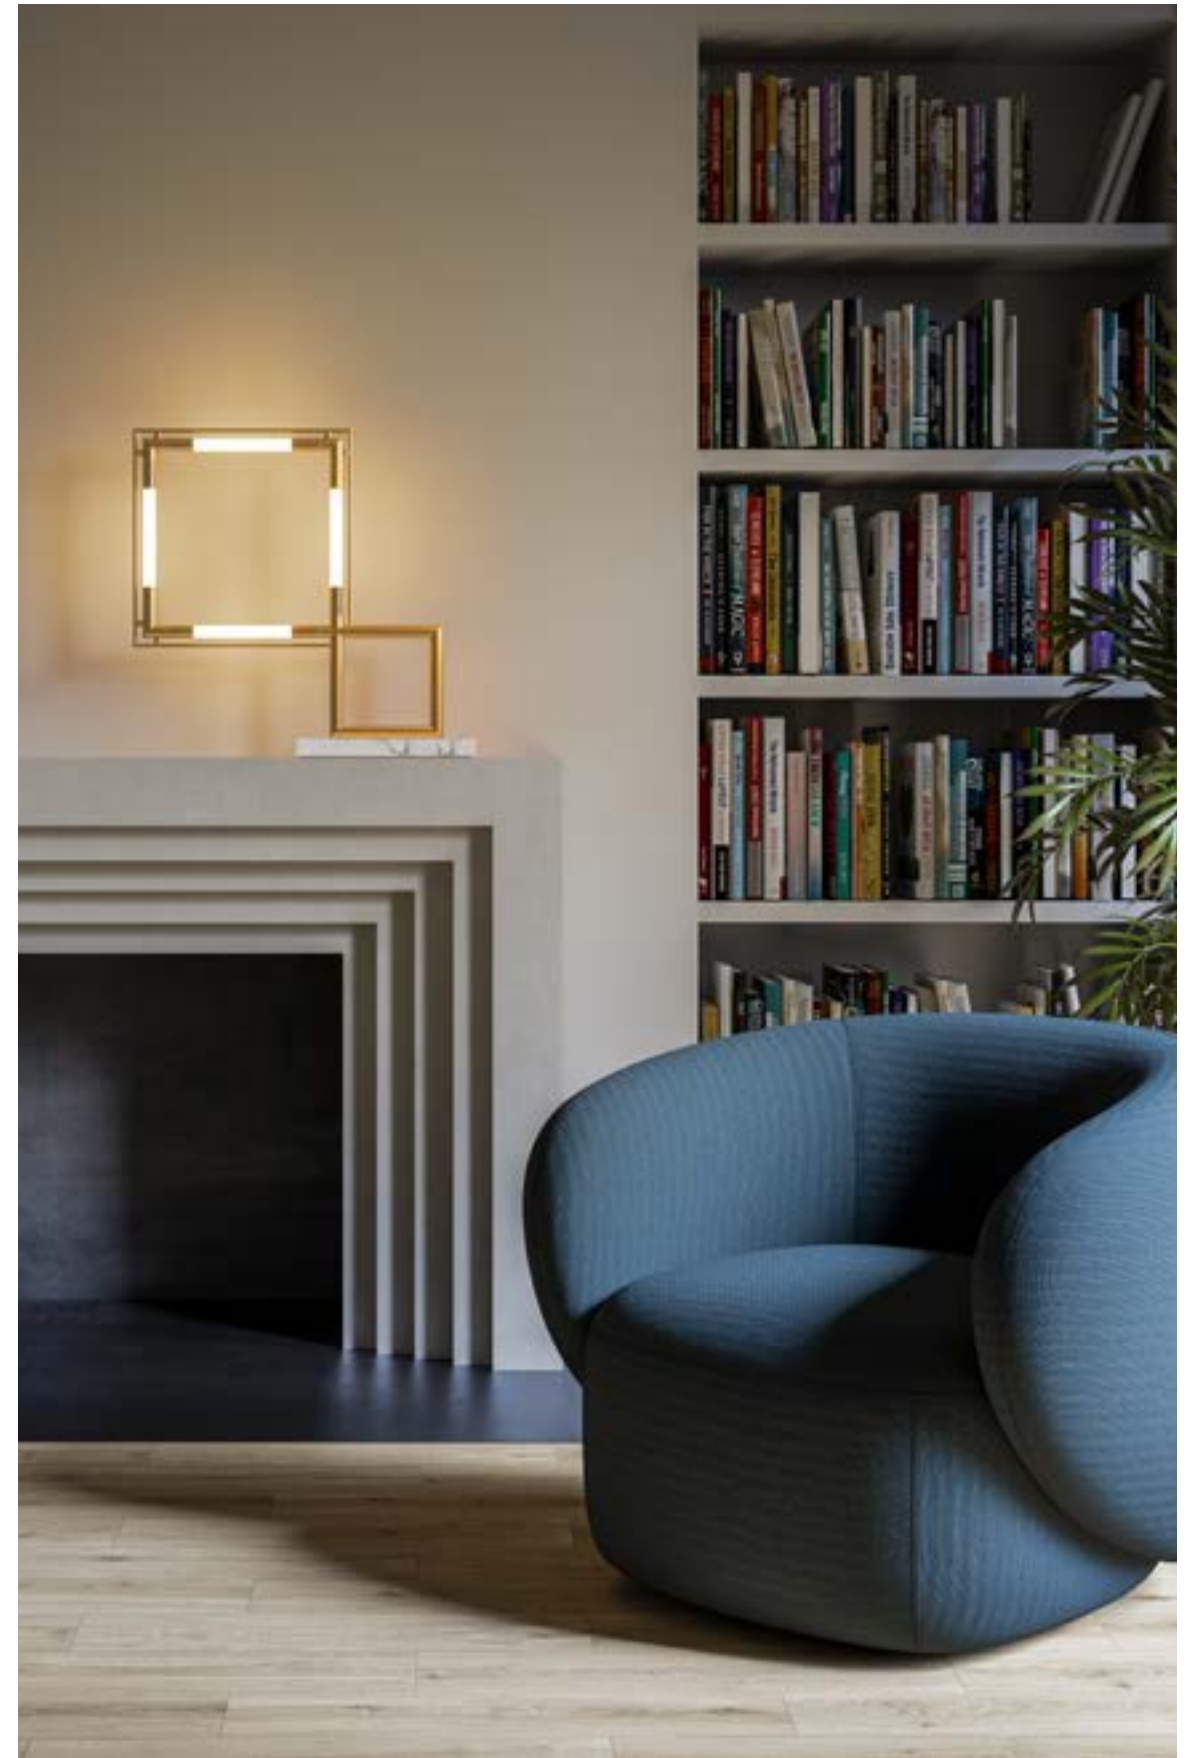

GÉOMÉTRIES RAFFINÉES

Dessinée en 1929 par Jacques Adnet, la lampe Quadro témoigne l'élégance, le minimalisme et le style sobre et raffiné du rationalisme des années trente. Quadro a été créée dans les années 70 sur la décision du directeur artistique de l'époque, Gilles Derain.

RAFFINIERTE GEOMETRIEN

Entwickelt im Jahr 1929 von Jacques Adnet, Quadro spiegelt die Eleganz, den Minimalismus und den nüchternen und raffinierten Stil der 1930er wider. Quadro wurde in den 1970ern vom damaligen künstlerischen Leiter Gilles Derain realisiert.

Washington

Design J.M. Wilmotte, 1983

SOBRIA ELEGANZA

Disegnata nel 1983 dall'architetto Jean-Michel Wilmotte per l'Ambasciata francese di Washington DC., si adatta con versatilità a qualunque contesto, dal soggiorno di casa all'ufficio, diffondendo una luce brillante e mirata.

SUBTLE ELEGANCE

Designed in 1983 by the French architect Jean Michel Wilmotte for the French embassy in Washington D.C., it adapts with versatility to any context, from the living room at home to the office, diffusing a bright and focused light.

ÉLÉGANCE SOBRE

Dessinée en 1983 par l'architecte français Jean-Michel Wilmotte pour l'ambassade de France à Washington D.C., cette lampe s'adapte avec brio à tous les contextes, du salon à la maison au bureau, en diffusant une lumière vive et concentrée.

DEZENTE ELEGANZ

Entwickelt im Jahr 1983 vom französischen Architekt Jean-Michel Wilmotte für die französische Botschaft in Washington D.C., passt Washington mit Einsatzflexibilität zu jedem Raum, vom Wohnzimmer zum Büro, indem sie ein helles und gezieltes Licht ausstrahlt.

WASHINGTON
Table lamp

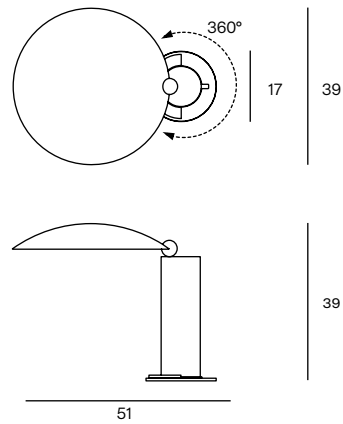

- Lampada da tavolo realizzata in metallo e ottone composta dal riflettore orientabile fissato su un corpo cilindrico. Sorgente LED integrata con dimmer su cavo in tessuto incluso. Disponibile in nero opaco, oro satinato o cromo e nelle nuove finiture in edizione limitata rame spazzolato e nichel nero satinato create per il suo 40° anniversario.

- Table lamp made of brass and metal composed of an adjustable reflector fixed to a cylindrical body. Embedded LED lighting source with dimmer on textile cable included. Available in matte black, satin gold or chrome and in the new limited edition brushed copper and satin black nickel finishes created for its 40th anniversary.

- Lampe à poser en métal et laiton composée d'un réflecteur orientable fixé sur un corps cylindrique. Source LED intégrée avec variateur d'intensité sur câble en tissu inclus. Disponible en noir mat, or satiné ou chrome et dans les nouvelles finitions en édition limitée en cuivre brossé et nickel noir satiné, réalisées à l'occasion de son 40e anniversaire.

- Tischlampe aus Brass und Metall mit verstellbarem Reflektor fixiert auf einem zylindrischen Hauptteil. Integrierte LED-Lichtquellen mit Dimmer im Textilkabel. Orbit

Design K. Gray, 1981

EQUILIBRIO SENZA TEMPO DI LUCE E DESIGN

Disegnata nel 1981 da Kevin Gray, Orbit è caratterizzata da una forma dove la linea, la sfera e la semisfera si incontrano in un unico design. La sua morfologia ricorda la traiettoria descritta nello spazio dal moto di un pianeta intorno al sole che invita a interagire con la luce in una relazione emozionale.

TIMELESS BALANCE OF LIGHT AND DESIGN

Designed in 1981 by Kevin Gray, Orbit is characterized by a form where the line, the sphere and the hemisphere blend in a unique design. Its morphology recalls the trajectory carved by the movement of a planet around the sun.

ÉQUILIBRE INTEMPOREL ENTRE LUMIÈRE ET DESIGN

Dessinée en 1981 par Kevin Gray, la lampe Orbit se caractérise par un design unique où se rencontrent la ligne, la sphère et la demi-sphère. Sa morphologie rappelle la trajectoire dessinée par le mouvement d'une planète autour du soleil, et sa présence invite à interagir avec la lumière dans une relation émotionnelle.

ZEITLOSE BALANCE DES LICHTS UND DES DESIGNS

Entwickelt im Jahr 1981 von Designer Kevin Gray, zeichnet sich Orbit durch ihre Form, in der die Linie, die Sphäre und die halbe Sphäre sich in einem einzigartigen Design mischen. Ihre Morphologie erinnert an die Bahnen der Planeten um die Sonne im Weltraum.

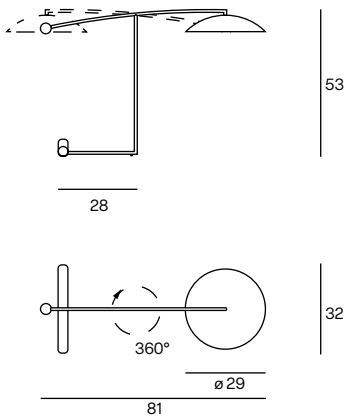

ORBIT

Victory

Design ArtOff, 1984

VITTORIA DI LUCE

Disegnata nel 1984 da ARTOFF (pseudonimo del Sig. Bobroff), Victory vede nella sottile struttura a “V” il suo segno caratterizzante, evocando non solo le forme archetipe del movimento modernista ma anche il ricordo di un antico trofeo simbolo di vittoria.

THE VICTORY OF LIGHT

Designed in 1984 by ARTOFF (pseudonym of Mr. Bobroff), Victory has in the subtle ‘V’ structure its defining mark, evoking not only the archetypal forms of the modernist movement but also the memory of an ancient trophy symbol of victory.

VICTOIRE DE LA LUMIÈRE

Dessiné en 1984 par ARTOFF (pseudonyme de Monsieur Bobroff), Victory se distingue par sa structure fine en “V” qui évoque non seulement les formes emblématiques du mouvement moderniste mais aussi le souvenir d’un ancien trophée, symbole de victoire.

DER SIEG DES LICHTS

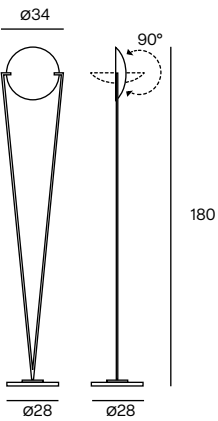

Entworfen im Jahr 1984 von Artoff (Pseudonym von Mr. Bobroff), zeichnet sich Victory durch ihren dünnen „V“ Form, der nicht nur an die modernistische Bewegung erinnert, sondern auch an eine alte Trophäe -Symbol des Siegs- erinnert.

Grus

Design A. Saggia e V. Sommella

UNA GRU DI LUCE

Disegnata da Alberto Saggia e Valerio Sommella, Grus prende ispirazione dell'elegante e longilineo volatile in procinto di spiccare il volo. L'esile linearità del corpo si staglia nello spazio, in una perfetta e geometrica armonia.

A CRANE OF LIGHT

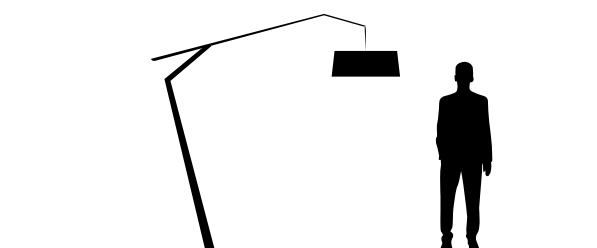

Designed by Alberto Saggia and Valerio Sommella, Grus draws inspiration from the elegant and nimble bird about to take flight. The slender lines of its body are exalted in space by perfect, geometric harmony.

UNE GRUE DE LUMIÈRE

Dessinée par Alberto Saggia et Valerio Sommella, Grus s'inspire de l'oiseau élégant et élancé sur le point de s'envoler. La mince linéarité du corps se détache dans l'espace, dans une harmonie parfaite et géométrique.

EIN KRANICH AUS LICHT

Entworfen von Alberto Saggia und Valerio Sommella, wurde diese Stehlampe vom eleganten und schlanken Vogel inspiriert. Sie erinnert an die charakteristische Pose des Vogels, bevor er auffliegt. Die schmalen Linien seines Körpers sind im Raum mit perfekter geometrischer Harmonie verherrlicht.

Skylines

Design Ahlux

SOTTILI FILI DI LUCI

Come esili fili nel cielo tessono geometrie essenziali. Rimandano alla materia e ai suoi immensi vuoti puntellati di luce. Linee di luce e fili neri, punti di luce e ombre. Skylines è una famiglia di lampade a sospensione e da soffitto composta da sottili tubi metallici intervallati da corpi illuminanti lineari.

THIN THREADS OF LIGHT

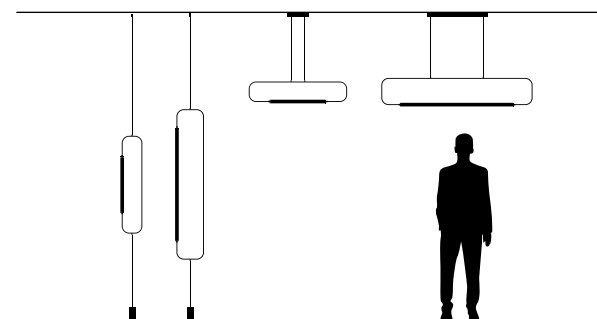

Like slender threads in the sky, they weave essential geometries. They refer to matter and its immense voids dotted with light. Lines of light and black threads, points of light and shadows. Skylines is a family of pendant and ceiling lamps composed of thin metal tubes interspersed with linear light fittings.

DE MINCES FILS DE LUMIÈRE

Semblables à des fils graciles dans le ciel, ils semblent tisser des géométries essentielles faisant référence à la matière et à ses vides immenses constellés de lumière. Des lignes de lumière et des fils noirs, des points de lumière et des ombres. La famille Skylines regroupe des suspensions et des plafonniers composées de tubes en métal fins entrecoupés de corps lumineux linéaires.

DÜNNE FÄDEN AUS LICHT

Wie dünne Fäden am Himmel weben sie wesentliche Geometrien. Sie verweisen auf die Materie und ihre unermesslichen, von Licht durchzogenen Leerräume. Linien aus Licht und schwarzen Fäden, Lichtpunkte und Schatten. Skylines ist eine Familie von Pendel- und Deckenlampen, die aus dünnen Metallrohren bestehen, die mit linearen Leuchten durchsetzt sind.

Disponibile in nero ft e bianco ft con base circolare in legno di noce canaletto e ruote in marmo bianco di Carrara.

-
Floor lamp made of metal, wood, and marble with a telescopic rod with an adjustable inclination through a key on the base. Thanks to an integrated joint, the LED spot can be swiveled vertically. Embedded LED light sources and pedal dimmer included. Available in black ft and white ft with circular base made of canaletto walnut wood and wheels of Carrara white marble.

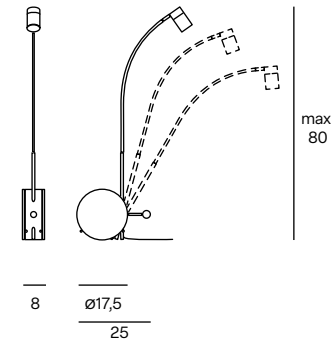

-
Lampadaire en métal, en bois et en marbre avec un bras télescopique dont l'inclinaison est réglable grâce à une clé située sur le socle. Une rotule intégrée permet d'orienter le spot LED à la verticale. Source LED intégrée et variateur à pédale inclus. Disponible en noir ft, blanc ft avec base circulaire en bois de noyer noir d'Amérique et roues en marbre blanc de Carrare.

-
Stehlampe aus Metall, Holz und Marmor mit einer Teleskopstange, deren Neigung mit Hilfe eines Schlüssels am Sockel verstellbar ist. Dank eines integrierten Gelenks kann der LED-Spot vertikal geschwenkt werden. Integrierte LED-Lichtquellen und Pedal-Dimmer inklusive. Verfügbar in schwarz ft und weiß ft mit rundem Sockel aus Canaletto-Nussbaumholz.

Design A. G. Cavalchini

IL TRIONFO DEL CAVALIERE

Disegnata dall'architetto Amedeo G. Cavalchini, reincarna l'ancestrale epica cavalleresca. La materialità del legno incontra il minimalismo della sorgente luminosa che la attraversa come una lancia di luce.

THE TRIUMPH OF CHIVALRY

Designed from the architect Amadeo G. Cavalchini, it reincarnates the ancestral epic of chivalry. The materiality of wood meets the minimalism of the light source that passes through it like a lance of light.

LE TRIOMPHE DU CHEVALIER

Dessiné par l'architecte Amedeo G. Cavalchini, ce lampadaire réincarne l'épopée ancestrale de la chevalerie. La matérialité du bois rencontre le minimalisme de la source lumineuse qui le traverse comme une lance lumineuse.

DER TRIUMPH DES KAVALIERS

Entworfen vom Architekt Amadeo G. Cavalchini, verkörpert sie das uralte Ritterepos. Die Materialität des Holzes trifft auf den Minimalismus der Lichtquelle, die es wie eine Lichtlanze durchdringt.

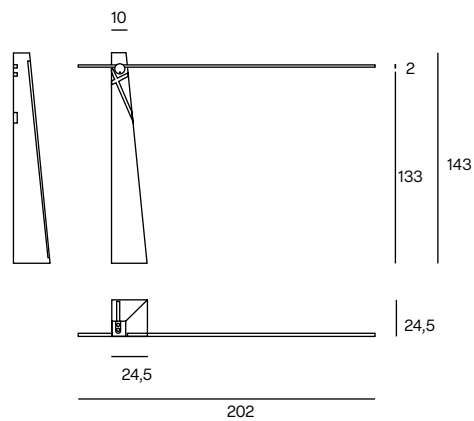

ASTOLFO
Floor lamp

- Lampada da terra con base in legno massello di noce e asta in alluminio anodizzato nero orientabile in 3 diverse angolazioni. Le due sorgenti LED dimmerabili sono collocate lungo l’asta e sul retro della base per un’illuminazione diretta ed indiretta.
- Floor lamp with base made of solid walnut and black anodized aluminium arm, that can be adjusted in 3 different angles . The two LED lighting sources are dimmable and located along the arm and on the back of the base, allowing for direct and indirect light.
- Lampadaire avec une structure en noyer massif et une tige en aluminium anodisé noir qui peut être positionné sous 3 angles différents. Les deux sources LED à intensité variable sont disposées le long du bras et à l’arrière de la base pour un éclairage direct et indirect.
- Stehlampe mit Grund aus Walnuss-Holzbasis und Stab aus schwarzem eloxiertem Messing, der in 3 verschiedenen Winkeln einstellbar ist. Die zwei LED-Lichtquellen mit Dimmer befinden sich entlang des Arms und hinter dem Grund. Das ermöglicht sowohl eine direkte als auch eine indirekte Beleuchtung.

Outline

Design F. Murano

GRAFISMI DI LUCE

Disegnata dall'architetto Francesco Murano, Outline è una sottile applique dove la sua luce indiretta vuole ricordare la silhouette di un fiammifero. Luce e struttura si uniscono creando un affresco luministico tracciato nello spazio.

GRAPHISMS OF LIGHT

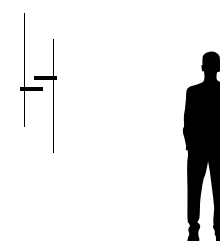

Designed by architect Francesco Murano, Outline is a slender wall lamp, whose indirect light recalls the silhouette of a matchstick. Light and structure blend to become a luminist fresco that cuts through space.

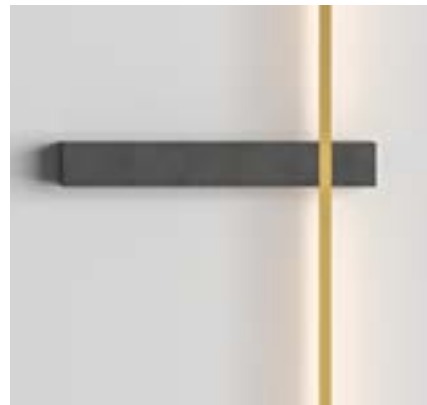

GRAPHISMES DE LUMIÈRE

Dessinée par l'architecte Francesco Murano, Outline est une fine applique murale qui projette une lumière indirecte évoquant la silhouette d'une allumette. Lumière et structure s'associent pour former une fresque lumineuse dans l'espace.

GRAPHISMUS AUS LICHT

Entworfen vom Architekt Francesco Murano, ist Outline eine schmale Wandlampe, deren indirektes Licht an die Silhouette eines Streichholzes erinnert. Licht und Struktur verschmelzen zu einem luministischen Fresko, das den Raum durchschneidet.

Ice Family

Design VillaTosca, LCI.LAB

SFERE DI LUCE

Disegnata da VillaTosca, Ice è una famiglia di lampade a sospensione che con le sue caratteristiche linee morbide e minimali crea suggestivi giochi di luce che si adattano a svariati ambienti.

SPHERES OF LIGHT

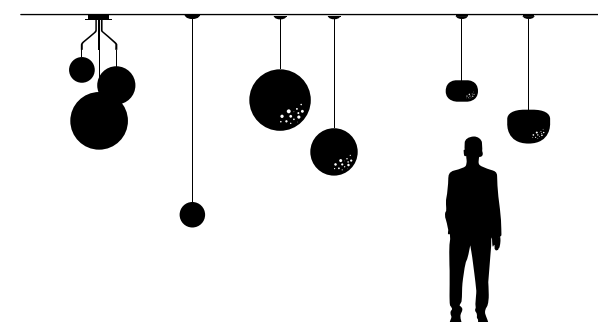

Designed by VillaTosca, Ice is a family of suspension lamps that, with its characteristic soft, minimalist lines, create striking plays of light that suit a variety of environments.

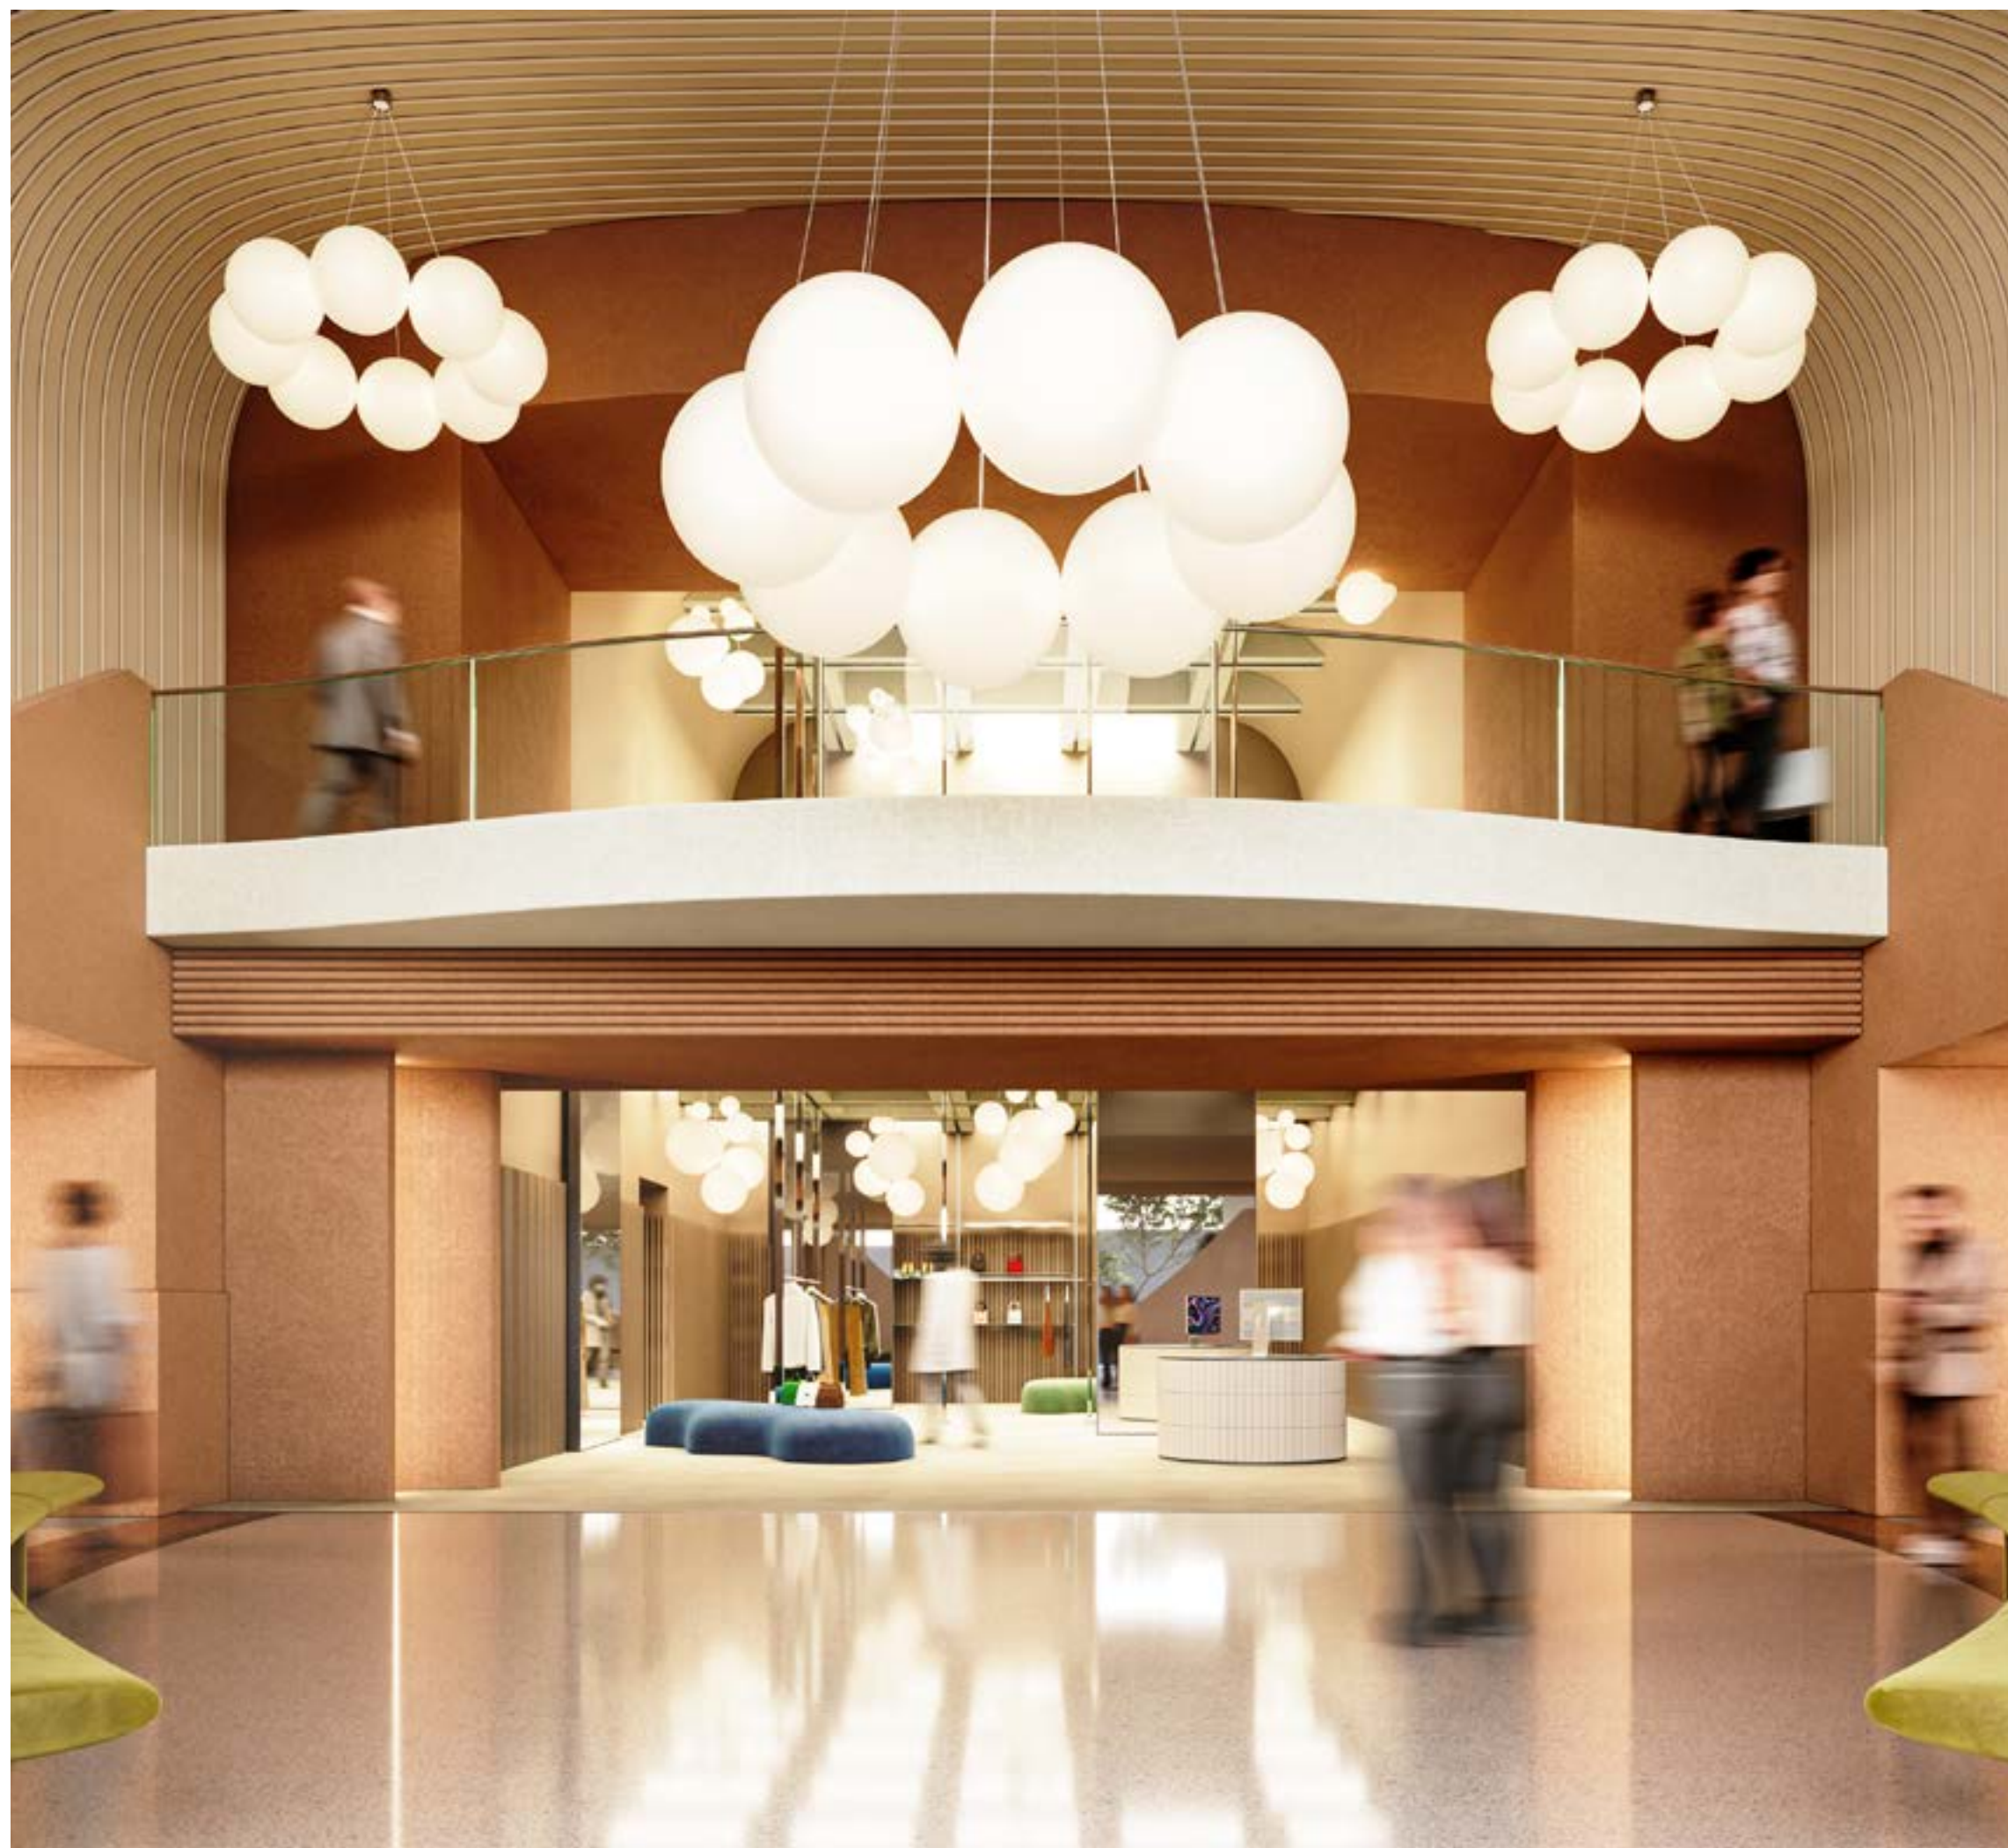

SPHÈRES DE LUMIÈRE

Dessinée par VillaTosca, Ice est une famille de suspensions capable, avec ses lignes douces et minimalistes qui la caractérisent, de créer des jeux de lumière suggestifs adaptés à une multitude d'environnements.

KUGELN AUS LICHT

Entworfen von VillaTosca, ist Ice eine Familie von Hängelampen, die, mit ihren weichen, minimalen Linien, eindrucksvolle Lichtspiele erzeugen, die zu einer Vielzahl von Umgebungen passen.

SUMOS - M - L**Suspension lamp**

- Lampada a sospensione realizzata in polycarbonato PC microforato disponibile in 3 forme e misure. La sua unica texture simula una superficie ghiacciata che grazie ai suoi molteplici rosoni consente di creare composizioni uniche.

- Suspension lamp made of PC micro perforated polycarbonate and available in 3 forms and measures. Its unique texture recalls an icy surface that allows unique compositions to be created thanks to its multiple ceiling roses.

- Suspension en polycarbonate PC microperforé disponible en 3 formes et dimensions. Sa texture unique simule une surface givrée et ses multiples rosaces permettent de créer des compositions uniques.

- Hängelampe aus mikroperforiertem PC-Polycarbonat, erhältlich in 4 Formen und Durchmessern. Ihre einzigartige Textur erinnert an eine eisige Oberfläche, die dank der zahlreichen Deckenrosetten einzigartige Kompositionen ermöglicht.

TØB

Design B. Rasmussen

L'ESSENZA DELLA LUCE

Disegnata da Brian Rasmussen, TØB bilancia con semplicità il minimalismo dei profili, la ricercatezza dei dettagli insieme alla calda preziosità dei materiali utilizzati.

THE ESSENCE OF LIGHT

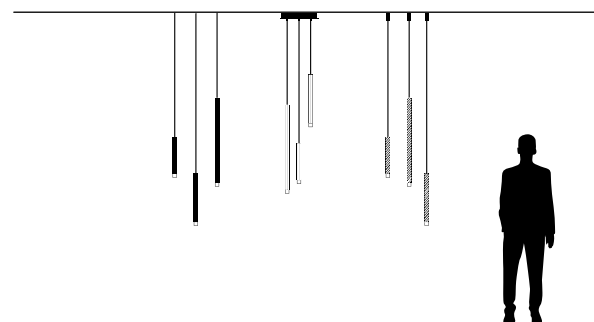

Designed by Brian Rasmussen, TØB balances with simplicity the minimalism of its profiles, the refined intricacy of details, and the warm preciousness of the materials used.

L'ESSENCE DE LA LUMIÈRE

Dessinée par Brian Rasmussen, TØB concilie avec simplicité le minimalisme des profils, le raffinement des détails et la préciosité chaleureuse des matériaux utilisés.

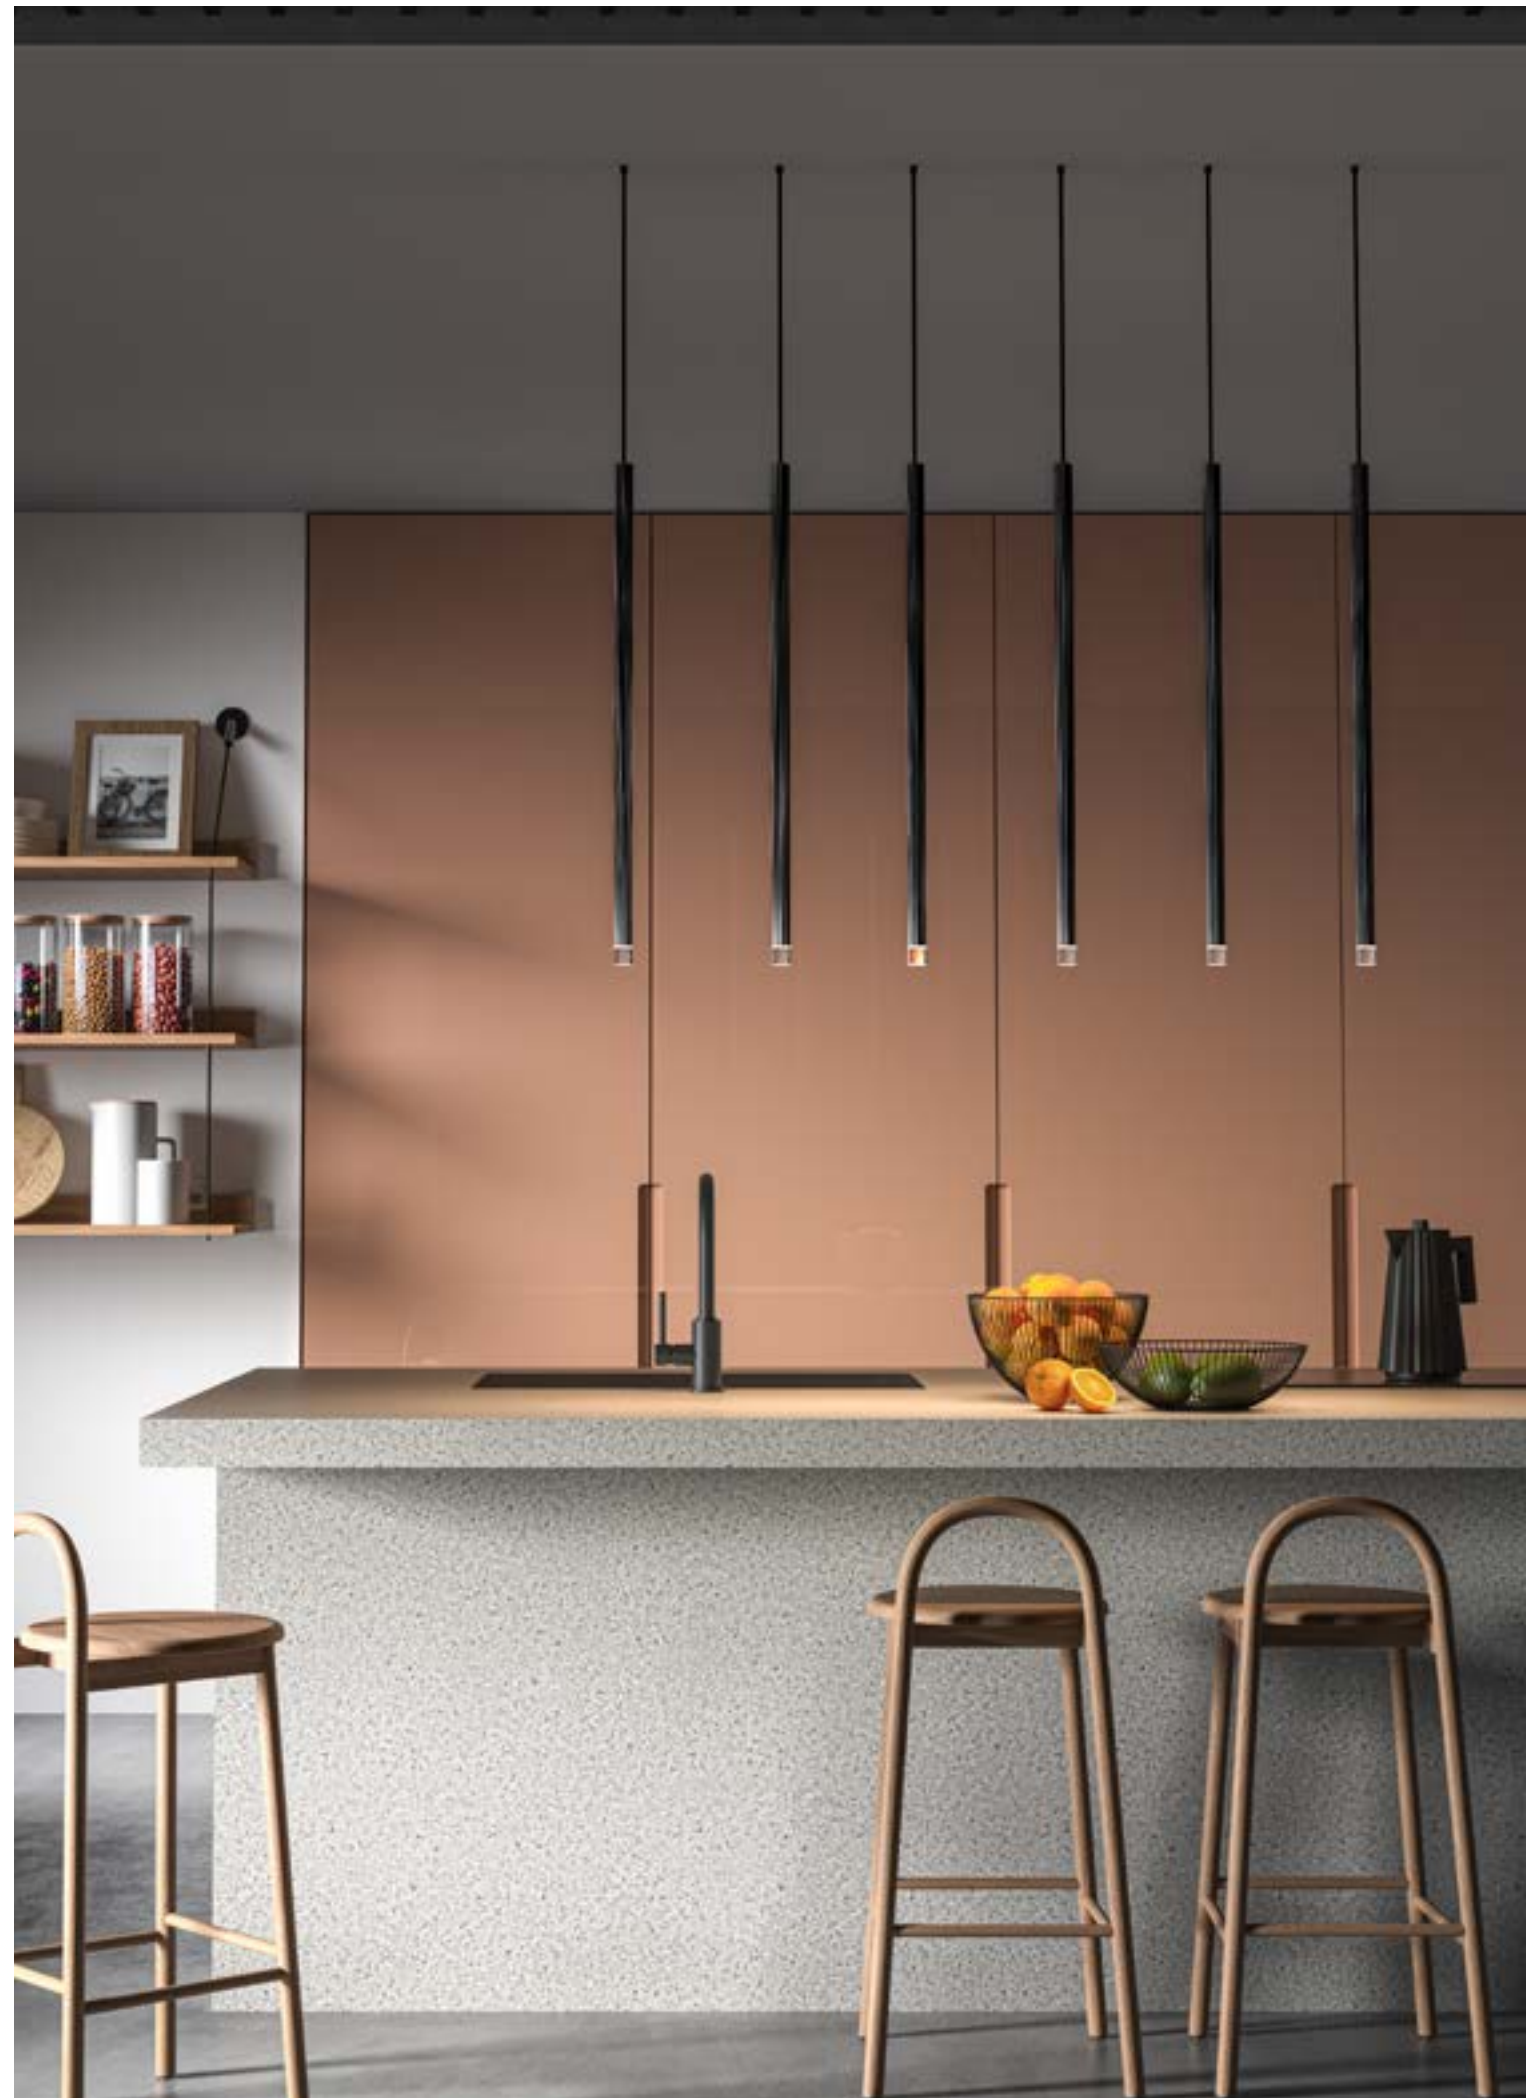

DIE ESSENZ DES LICHTS

Das von Brian Rasmussen entworfene TØB gleicht auf einfache Weise den Minimalismus der Profile, die Verfeinerung der Details und die warme Kostbarkeit der verwendeten Materialien aus.

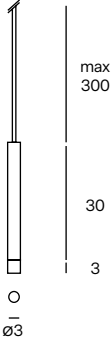

TØB 30 - 50 - 80
Suspension lamp

- Lampada a sospensione realizzata in ottone, disponibile in tre lunghezze (33, 53 e 83 cm) e nelle versioni liscio (line), scanalato (stripes) e cordonato (twist). Sorgente LED integrata ed alimentatore elettronico incluso solo nei rosoni; grazie ai quali è possibile creare composizioni libere. Disponibile in ottone lucido, cromo e nichel nero con rosoni in bianco ft o nero ft.
- Suspension lamp made of brass, available in three lengths (33, 53 and 83 cm) and in smooth brass (line), grooved brass (stripes), and twisted brass (twist). Embedded LED lighting source and power supply included in the ceiling roses only, thanks to which free compositions can be created. Available in polished brass, chrome and black nickel with ceiling roses in white ft or black ft.
- Suspension en laiton, disponible en trois longueurs (33, 53 et 83 cm) et en version lisse (line), rainurée (stripes) et torsadée (twist). Source LED intégrée et driver électronique inclus uniquement dans les rosaces permettant de créer des compositions personnalisées. Disponible en laiton poli, chrome et nickel noir avec des rosaces en blanc ft ou noir ft.
- Hängelampe aus Messing, verfügbar in drei Längen (33, 53 und 83 cm) und in aus glattem Messing (Line), gerilltem Messing (Stripes) und gedrehtem Messing (Twist). Integrierte LED-Lichtquelle und TRIAC dimmbare Stromversorgung nur in den Deckenrosetten enthalten, dank derer freie Kompositionen möglich sind. Erhältlich in poliertem Messing, Chrom und schwarzem Nickel mit Deckenrosetten in weißem oder schwarzem Fuß.

Concorde

Design VillaTosca

MONOLITE LUMINOSO

Affusolata e statuarica come un monolite, Concorde cita l'obelisco della celebre piazza della Ville Lumière a pochi passi dagli Champs-Élysées e ne rielabora la silhouette in una linea semplice e stilizzata.

BRIGHT MONOLITH

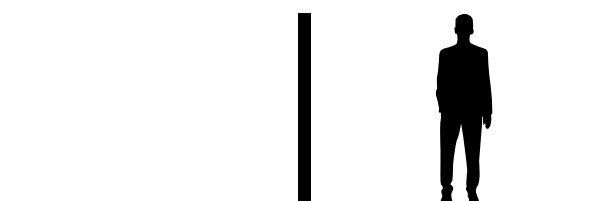

Tapered and statuesque as a monolith, Concorde recalls the obelisk of the renowned square of the Ville Lumière, a few steps from the Champs Élysées, and reinterprets its silhouette with a simple, stylized line.

MONOLITHE LUMINEUX

Élancé et sculptural comme un monolithe, Concorde évoque l'obélisque de la célèbre place de la Ville Lumière à quelques pas des Champs-Élysées et retravaille sa silhouette dans une ligne simple et stylisée.

GLÄNZENDER MONOLITH

Schmal und statuenhaft, erinnert Concorde an die Obeliskten des bekannten Platzes der Ville Lumière, der nur wenige Schritte von den eleganten Champs-Élysées ist. Sie reinterpretiert die Silhouette mit einer einfachen, stilisierten Linie.

CONCORDE
Floor lamp

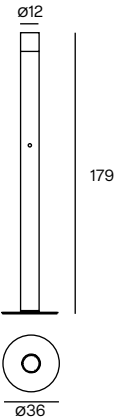

- Lampada da terra realizzata in alluminio ed ottone con dettagli cromati sulla sommità e lo scuretto della base che alleggeriscono e rendono piacevole la semplicità della forma. Sorgente LED integrata a luce indiretta e push dimmer su corpo lampada. Disponibile in bianco ft, nero ft e red brown ft.

- Floor lamp made of aluminium and brass with chrome details on the top and the dark hues at the base that slim its profile and create a pleasant simplicity of form. Embedded indirect LED lighting source and push dimmer on the body lamp. Available in white ft, black ft and red brown ft.

- Lampadaire en aluminium et laiton présentant des détails chromés sur partie supérieure ; l'assombrissement de la base éclaire et agrmente la simplicité de la forme. Source LED intégrée avec lumière indirecte et variateur d'intensité avec bouton poussoir sur le corps du lampadaire. Disponible en en blanc ft, noir ft et red brown ft.

- Stehlampe aus Aluminium und Messing mit verchromten Details an der Oberseite und den dunklen Farbtönen an der Basis, die das Profil verschlanken und eine angenehme Einfachheit der Form schaffen. _ Brac-Brick-Domino System

Brac-Brick-Domino

Design VillaTosca Design

GEOMETRIE DI LUCE

Ingenuità, rigore e design essenziale si incontrano nella collezione di plafoniere Brac, Brick e Domino nei quali sono iscritti piccoli cerchi di luce. Piccole gocce luminose sono distribuite con apparente casualità sulla superficie di Brick e Brac. Attraverso la particolare forma del sistema Domino si possono creare liberamente mosaici e composizione di luci.

GEOMETRIES OF LIGHT

Ingenuity, rigor and essential design combine in the ceiling lamps collection Brac, Brick and Domino in which circles of light are fashioned. Small luminous drops are scattered with apparent causality along the surface of Brick and Brac. Through the particular form of the Domino system mosaics and light compositions can be freely created.

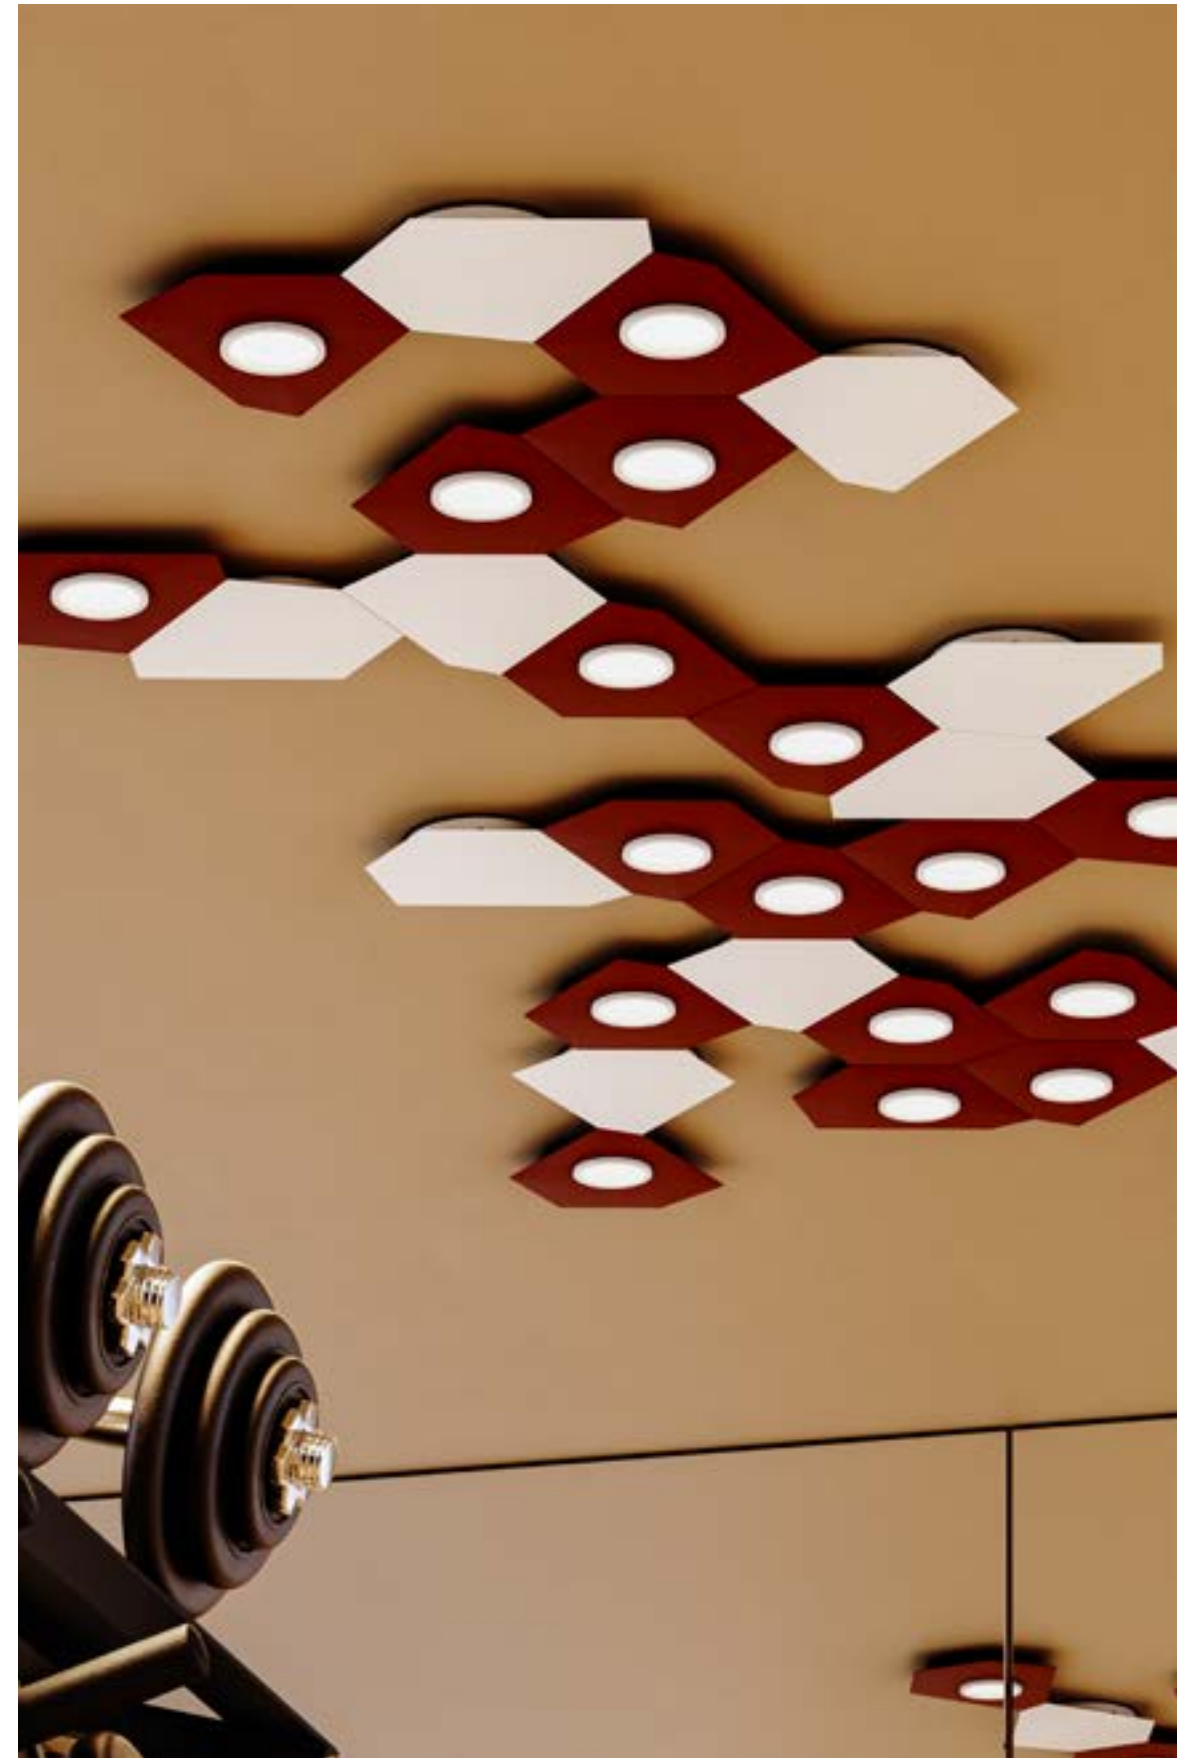

GÉOMÉTRIES LUMINEUSES

La collection de plafonniers Brac, Brick et Domino, dans lesquels s'inscrivent des petits cercles de lumière, est un parfait mélange d'ingéniosité, de rigueur et de design épuré. De petites gouttes de lumière sont distribuées de façon apparemment aléatoire sur la surface de Brick et de Brac. La forme particulière du système Domino permet de créer en toute liberté des mosaïques et des compositions lumineuses.

GEOMETRIEN AUS LICHT

Naivität und Rigor verschmelzen sich miteinander in der Familie der Deckenlampen Brac, Brick und Domino, in der Lichtkreise geformt sind. Kleine, glänzende Tropfen sind mit scheinbarer Kausalität auf der runden Oberfläche von Brick und Brac verbreitet. Durch die besondere Form des Domino Systems können Mosaik und Lichterkombinationen kreiert werden.

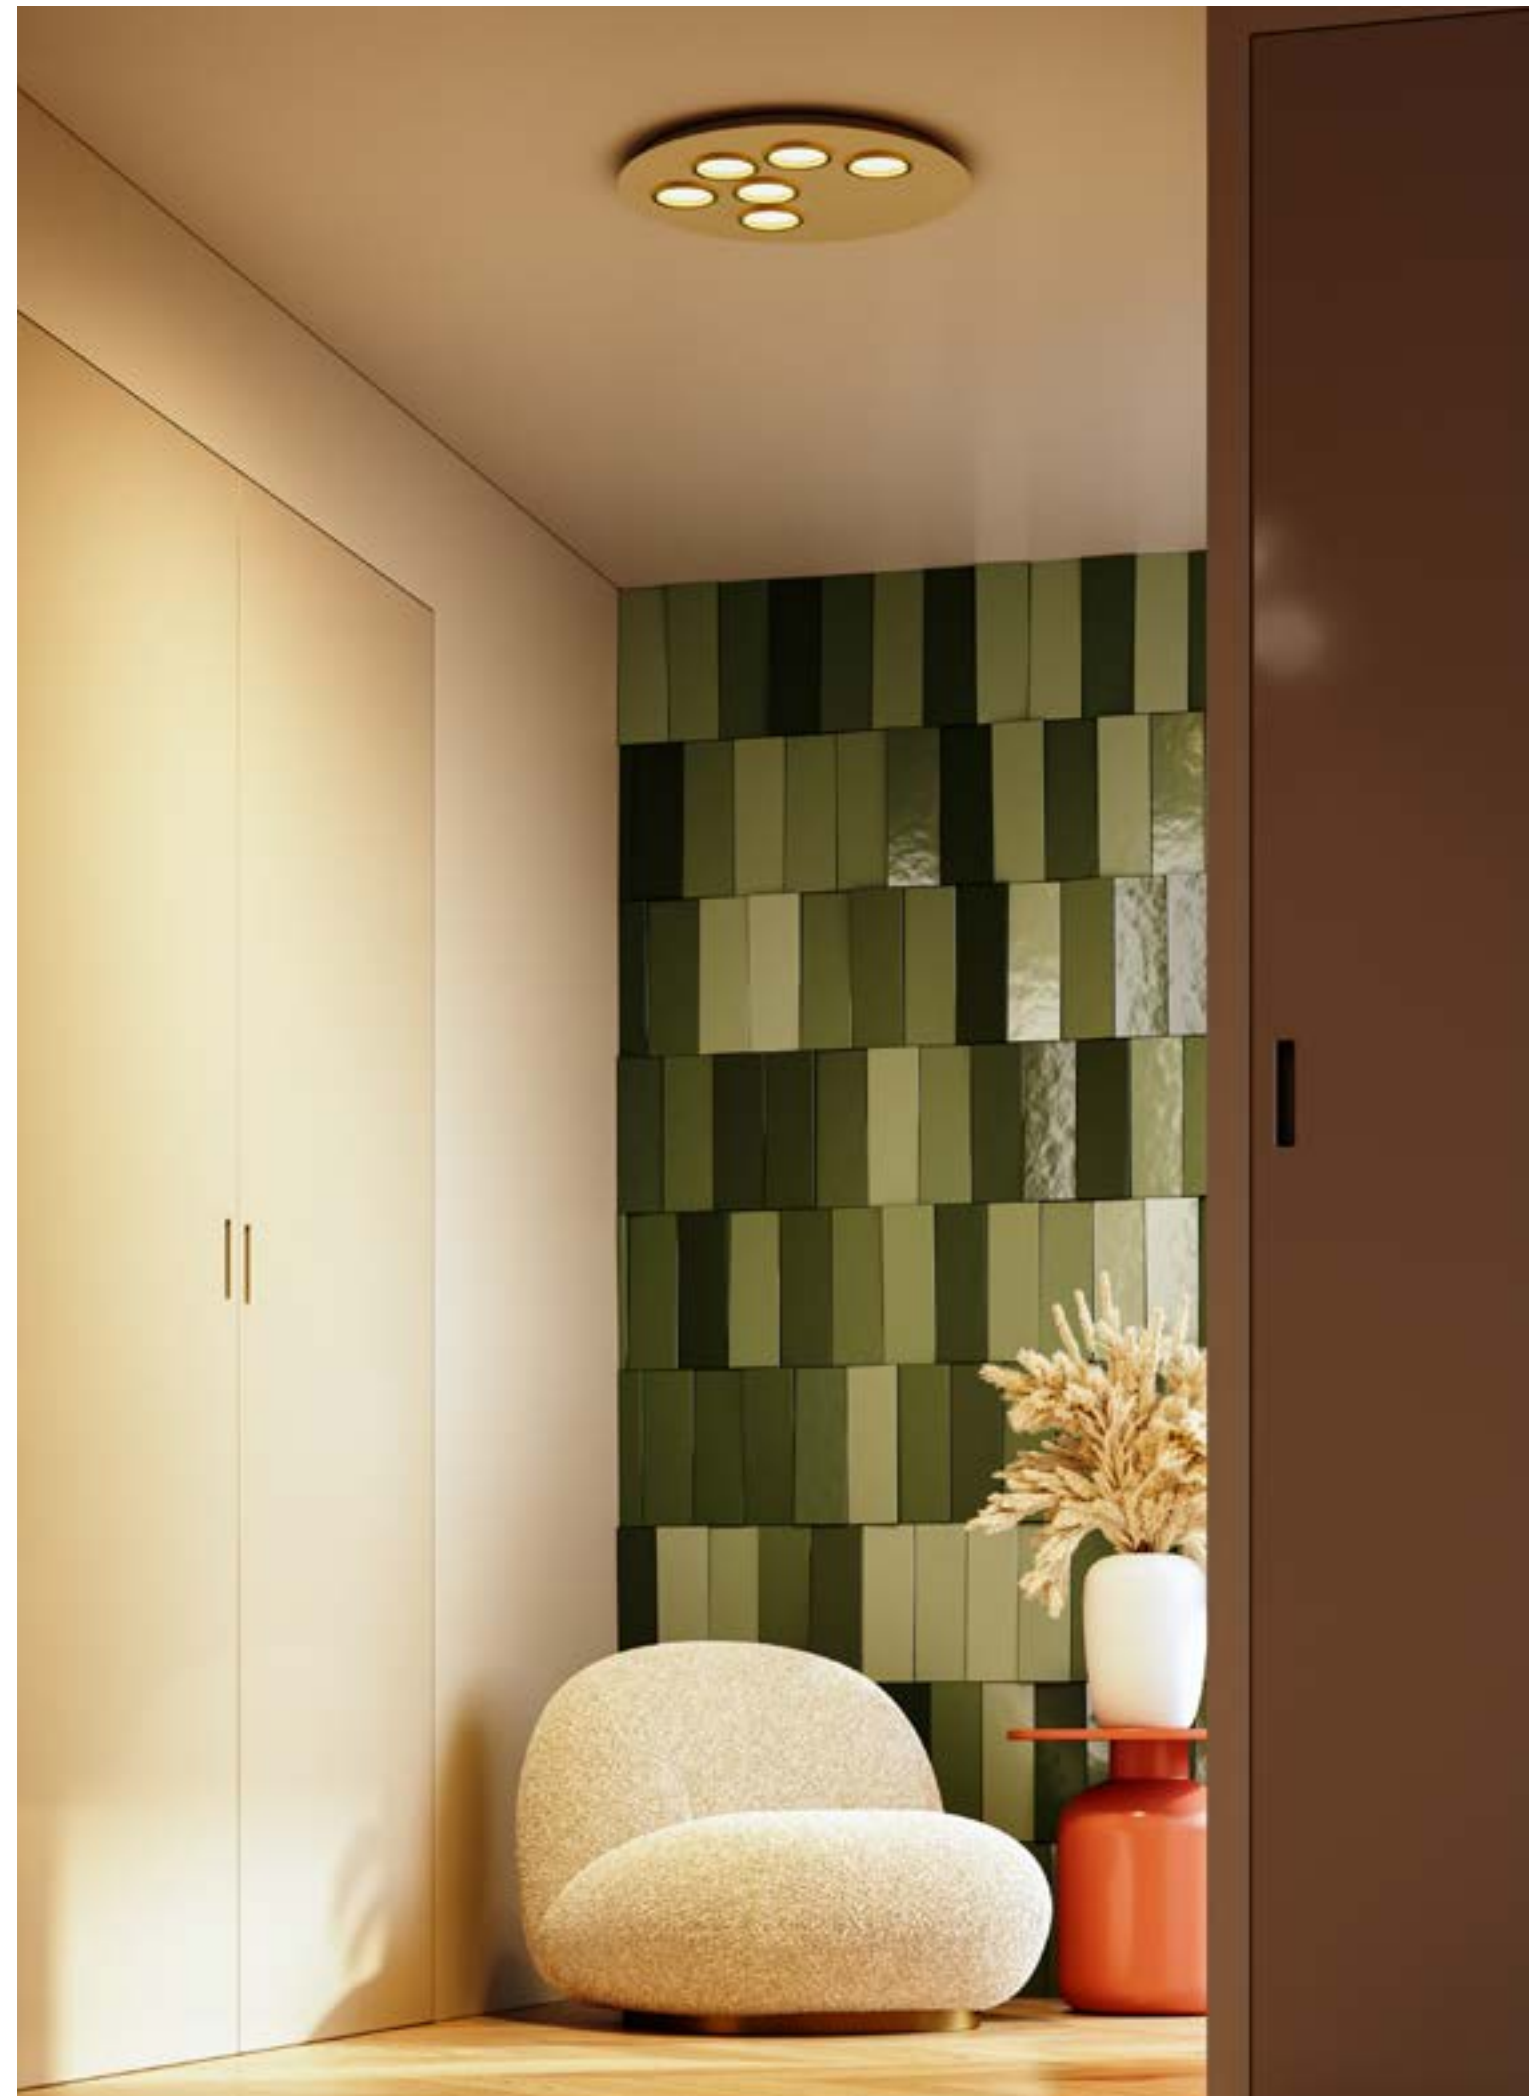

BRAC**Ceiling lamp**

- Lampada da soffitto circolare realizzata in alluminio verniciato a 1, 4, 6 e 10 luci con sorgente LED integrata ed alimentatore elettronico dimmerabile TRIAC. Disponibile in diverse composizioni di colore personalizzabili grazie all'utilizzo del configuratore a pagina 300.

SALES DEPARTMENT
tel. (+39) 02 3654 4310
sales@lumencenteritalia.com

All LUMEN CENTER products that are part of the scope of the European low voltage directive BT 73/23 and consecutive amendment 93/68, meet the necessary requirements and bear the CE labeling. All dimensions are in cm unless otherwise indicated in the technical sheet. The assembly and maintenance instructions are included in the packages, as well as all certificates and warranty conditions. The indications about the materials and the finishes only refer to the main visible parts of the products. In general, the products are supplied without bulbs, unless otherwise indicated in the price list. LUMEN CENTER Italia Srl reserves the right to make any technical or formal modifications to the products contained in the catalogue, without any notice. All the data related to the bright efficiency emitted by our devices, are nominal and concerning to the specific technics of our bright sources (LED, halogen and fluorescent lamps) declared by the producer. The data of effective consumption and luminous emission, based on electric characteristics (potential differences and power supplies, dimming etc.) on physic and aesthetic of the devices (colour, material, type etc.) will be provided on customers demand.

Tutti i prodotti LUMEN CENTER che rientrano nell'ambito di applicazione della direttiva europea bassa tensione B.T. 73/23 e successiva modifica 93/68, soddisfano ai requisiti richiesti e recano la marcatura CE. Tutte le dimensioni sono espresse in cm salvo se diversamente indicato nella scheda tecnica. Le istruzioni di montaggio e di manutenzione sono incluse negli imballi, così come i certificati e le condizioni di garanzia. Le indicazioni relative a materiali e finiture riguardano solo le parti principali visibili dei prodotti. Generalmente i prodotti sono forniti senza lampadina salvo se diversamente indicato nel listino prezzi. LUMEN CENTER Italia Srl si riserva di apportare qualsiasi modifica tecnica o formale ai prodotti a catalogo senza dovere di preavviso. Tutti i dati relativi all'efficienza luminosa emessa dai nostri apparecchi, sono da intendersi nominali e riferiti alle specifiche tecniche delle sorgenti luminose (lampade a LED, alogene e fluorescenti) dichiarate dal costruttore. I dati di effettivo consumo ed emissione luminosa, basati sulle caratteristiche elettriche (tensioni e correnti di alimentazione, dimmerabilità ecc.), fisiche ed estetiche degli apparecchi (colore, materiale, tipologia ecc.), verranno fornite al cliente su specifica richiesta.
